

STATE-OF-THE-ART TECHNOLOGY WITH
PERFORMANCE AS GOOD AS IT LOOKS

AirWave 1 – the air cushion system 4.0

AirWave introduces the next generation of air cushion machines: the AirWave 1. Quick, quiet, cost-efficient, connected via Bluetooth and modular. Light at only 11 lbs., the AirWave 1 delivers powerful performance. It can supply up to 4 workstations with reliable air cushions. It is programmable and can be seamlessly integrated into AirWave's system technology. Whether it is small cushions or wide pads, the AirWave 1 is a top performer in all categories. The intelligent system features "one-key" technology with a revolutionary and patented design.
